- **CORE SUBJECTS:** DATA STRUCTURES & ALGORITHMS, DBMS, OPERATING SYSTEMS, COMPUTER NETWORKS.
- **OTHER SKILLS:** CLOUD FUNDAMENTALS CYBERSECURITY BASICS, PROBLEM SOLVING.

EDUCATION

BTech-Electronic and Computer Engineering	2022-26	Vellore Institute of Technology-Chennai	CGPA:8.37 (Till Sem:6)
CBSE (Class XII)	2022	Delhi Public School,Kanpur	90%
CBSE (Class X)	2020	Delhi Public School,Kanpur	84.5%

INTERNSHIP/S

Altacee -Remote

Jan 2025 – July 2025

Frontend Developer Intern

- Designed and developed an optimized and scalable frontend architecture for Altacee's platform. reusable UI components and enhanced performance by improving rendering efficiency.
- Ensured a fully responsive design and cross-browser compatibility to improve user engagement.
- Technologies: React, Material-UI,Git.

Freelance Project

- Designed and built a static yet highly responsive website for a Karate academy using Reactjs.
- Implemented SEO-friendly features, improving search engine visibility and engagement.
- Ensured smooth navigation, optimized performance, and lightweight design for better user experience.
- Technologies:React, Tailwind CSS, Vercel.
- Website Link: shotokankarate.in

ACADEMIC PROJECTS

ResidentSync with AdminDashboard: Developed an apartment management system using MERN stack and supporting technologies.

- **User Panel:** Seamless guest management & maintenance fee payments.
- **Admin Panel:** Enables apartment security to oversee operations efficiently & ensure resident safety.
- Led **end-to-end development**, focusing on intuitive design & robust functionality.

Geotech Solar Panel E-commerce: Built an e-commerce platform for solar panels using MERN stack.

- Integrated **secure authentication, product management, payments, and inventory control**.
- Developed **Admin Dashboard** for operations: inventory, orders, and customer support.
- Ensured **scalability and performance optimization** throughout the lifecycle.
- [Link](#)

Thoughts..! Blogging Platform:Created a personal blogging platform using EJS, JavaScript, MongoDB, and Node.js.

- Features: dynamic blog post management, secure admin access, and user-friendly UI.

- Utilized **MongoDB** for efficient data storage and retrieval.
- [Thoughts!](#)

News Website: Implemented a responsive news website using HTML, CSS, JavaScript, and API integration.

- Features: dynamic content fetching, **search & category filters**, and user interaction features.
- Emphasis on **intuitive UI/UX design** for better usability.

POSITIONS OF RESPONSIBILITY & ACHIEVEMENTS

- **Web Development Lead At Robotics Club: Positions of Responsibility & Achievements**
- **Finance Lead, Cultural Club:** Managed budgeting, sponsorships, and expenses for large-scale events, ensuring efficiency and transparency.
- **Management Team Member, Linux Club:** Organized technical workshops and events, coordinating logistics and teams for maximum participation.
- **SAP Hackathon 2024:** MERN stack project ranked **Top 20/1,000+ teams**, demonstrating scalable development and problem-solving.
- **Smart India Hackathon (SIH):** Participated, gaining exposure to **real-world problem statements and collaborative solution design**.

OTHER INFORMATION

- **Analytical Skills:** Applied problem-solving and data analysis in academic and hackathon projects, including designing scalable MERN stack applications, optimizing user workflows, and generating actionable insights to improve system efficiency and user experience.
- **Consulting Interest:** During SAP Hackathon 2024, contributed to a MERN project selected in the Top 20 nationwide. The project demonstrated how digital transformation can solve real business problems in scalability and customer engagement.
- **Soft Skills & Collaboration:** Served as Web Development Lead (Robotics Club), Finance Lead (Cultural Club), and part of the Management Team (Linux Club), where I organized events, managed finances, and coordinated technical workshops — strengthening my leadership, teamwork, and organizational skills.
- **Strategic Thinking:** In ResidentSync project, designed an admin dashboard for apartment security, solving the real-world issue of managing visitors and fees digitally, leading to more efficient and safer operations.
- **Personal Interests:** Enjoy exploring new cultures through travel and gaining insights into how people approach challenges in different contexts. Passionate about meeting diverse individuals, discussing ideas, and exchanging perspectives. Regularly listen to podcasts on business, technology, and strategy, which helps broaden my thinking and inspires innovative approaches.
